## **Trisodium Phosphate**

## **Food Grade**

**Chemical Formula** Na<sub>3</sub>PO<sub>4</sub> (abbr. TSP)

**CAS No.** 7601-54-9

**Description** White, crystalline material, soluble in water and giving strongly alkaline

solutions

**Characteristics** Conform to GB25565-2010 or contract specification

| Technical Data                   |  | GB25565-2010 |           |
|----------------------------------|--|--------------|-----------|
| $Na_3PO_4$ , $w/\%$ ,            |  | ≥            | 97.0      |
| $Na_3PO_4\cdot H_2O$ , w/%,      |  | ≥            | 97.0      |
| $Na_3PO_4\cdot12H_2O$ , $w/\%$ , |  | ≥            | 97.0      |
| pH (10g/I)                       |  |              | 11.5~12.5 |
| Water Insolubles, w/%            |  | ≤            | 0.2       |
| Fluoride (as F), (mg/kg)         |  | ≥            | 50        |
| Heavy Metals(as Pb), (mg/kg)     |  | ≥            | 10        |
| As (mg/kg)                       |  | ≤            | 3         |
| Pb (mg/kg)                       |  | ≤            | 4         |
| Loss on Ignition                 | $(Na_3PO_4), w/\%,$  | ≤            | 2         |
|                                  | $(Na_3PO_4\cdot H_2O), w/\%$                               |              | 8~11      |
|                                  | (Na <sub>3</sub> PO <sub>4</sub> ·12H <sub>2</sub> O), w/% |              | 45~57     |

**Uses** Water binding agent, emulsifier, pH adjusting agent and stabilizer in food;

water treatment, cleaner, metal treatment, and textile

Storage Cool, dry and odorless

**Packaging** 25kg or 15kg N.W. per bag or on request
